PART LIST

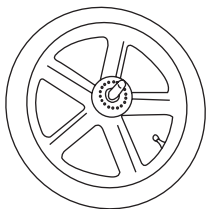

Stroller x 1

Front wheel x 1

Rear wheels x 2

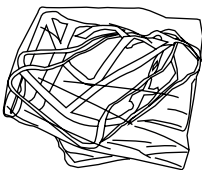

Bumper bar x 1

Tyre pump x 1

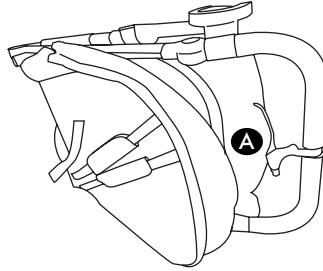

Raincover x 1

UNFOLDING

Unpack all contents and check that all parts are present before starting assembly. Please refer to the parts list.

WARNING! Keep children away from stroller while unfolding.

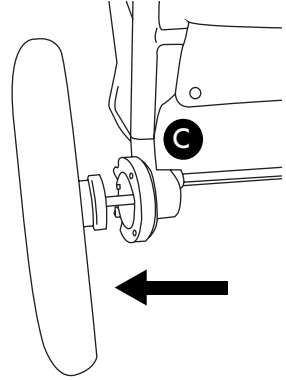

1. Position the stroller (A) with the seat facing up and the handle bars closest to you.
2. If necessary, release the locking latch located on the lower right side by lifting the latch off the catch.
3. Pull up on the handlebar so that the stroller unfolds to its upright and locked position.
4. Ensure that the stroller is completely opened and the latching mechanism is secured before ANY further assembly or use of the stroller.

CAUTION: While unfolding the stroller, be careful to keep your fingers from being pinched by moving parts.

WARNING! ALWAYS keep children away from the stroller when unfolding.

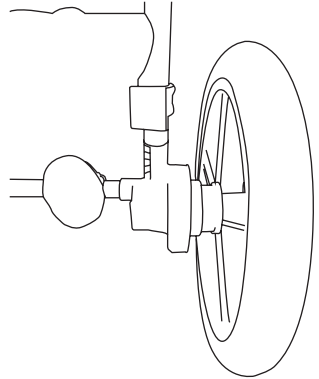

REAR WHEEL ASSEMBLY

1. Take one rear wheel (C) and insert it into one of the rear wheel hubs until an audible “click” is heard.
NOTE: You may need to push the wheel with some force to get it past the locking mechanism.

2. Pull outward on the wheel to ensure the wheel is installed properly.

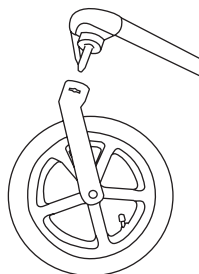

3. To remove a rear wheel, push down on the plastic tab on the rear axle and then pull outward on the wheel.

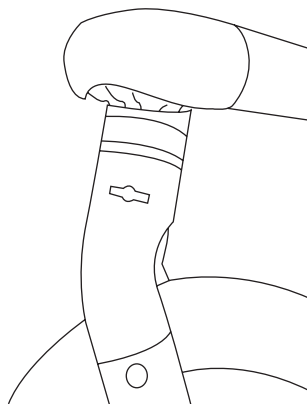

FRONT WHEEL ASSEMBLY

Slide front wheel into the front wheel post until it clicks in place. Pull on the wheel to ensure installed properly.

- To remove, press the metal release button on the back of the front wheel post and pull away from the stroller.

To set the front wheel to either lock or swivel mode, twist the ring near the top of the wheel to the desired mode.

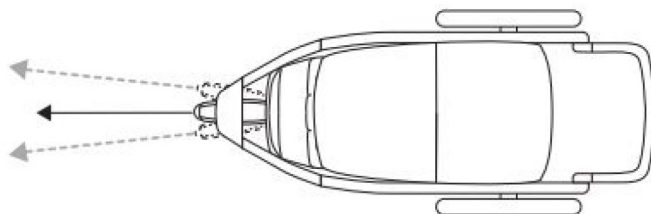

FRONT WHEEL SWIVEL LOCK

The stroller can be operated with the front wheel in either swivel mode or locked mode.

To set the front wheel to either lock or swivel mode, twist the ring near the top of the wheel to the desired mode.

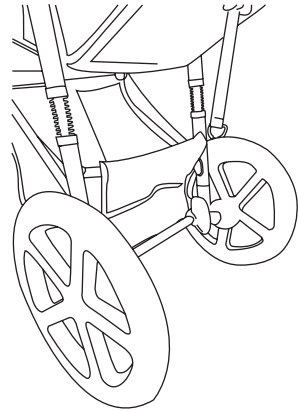

The adjustable tracker allows wheel alignment fine-tuning.

BRAKES

This stroller is equipped with a linked parking brake for the rear wheels.

1. Before placing your child into the stroller or removing them from the stroller, be certain that the rear parking brake is engaged.
2. To engage the rear parking brake, push down on the brake lever on the rear axle of the stroller until you hear an audible “click”.
3. Check that the brake is properly applied by attempting to push the stroller backwards and forwards.
4. To release the brake, lift up on the brake lever until it locks into the UP position and you hear an audible “click”.

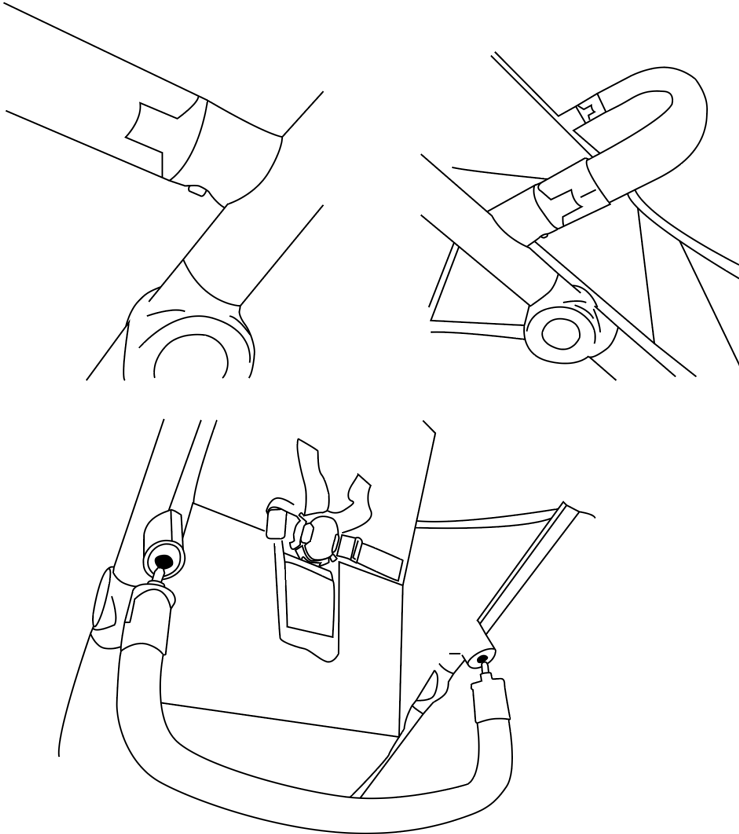

WARNING! Always engage the parking brake when the stroller is not being pushed so that it will not roll away.

WARNING! Never leave the stroller unattended, especially on a hill or incline, as the stroller may tip over or slide.

INSTALLING/REMOVING THE BUMPER BAR

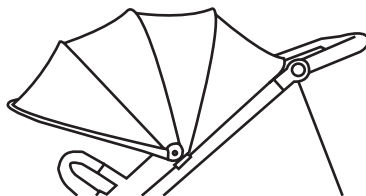

- Remove the two safety caps from the seat mount points by pressing the release button and pulling each cap off.
- To attach the bumper bar, orient it with the male fitting pointed towards the seat. While holding the male fittings straight, insert the male fittings on the bumper bar into the female fittings located on both sides of the seat until it snaps into place. Pull outward on the bumper bar to ensure it is secure.
- To remove, press the buttons located on the underside of both male fittings inward and pull the bumper bar away from the seat.

CANOPY ADJUSTMENT

1. To open the canopy, pull forward on the front edge of the canopy until it is fully extended.

The canopy and visor can be adjusted into several positions ranging from fully closed to full extended, or any position in between.

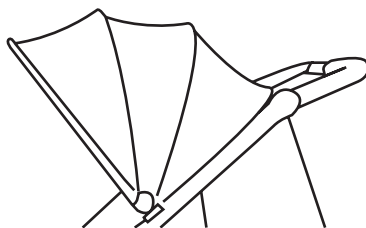

2. The top rear portion of the canopy has a roll back window.

To open, pull the front edge up, roll the flap backward and secure using.

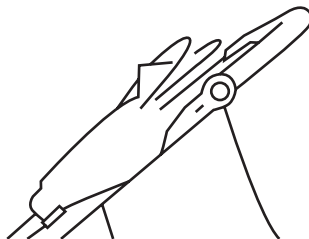

3. To close the canopy, push the front edge of the canopy toward the rear of the stroller.

TIP: Push the seat back forward and tuck the canopy behind it

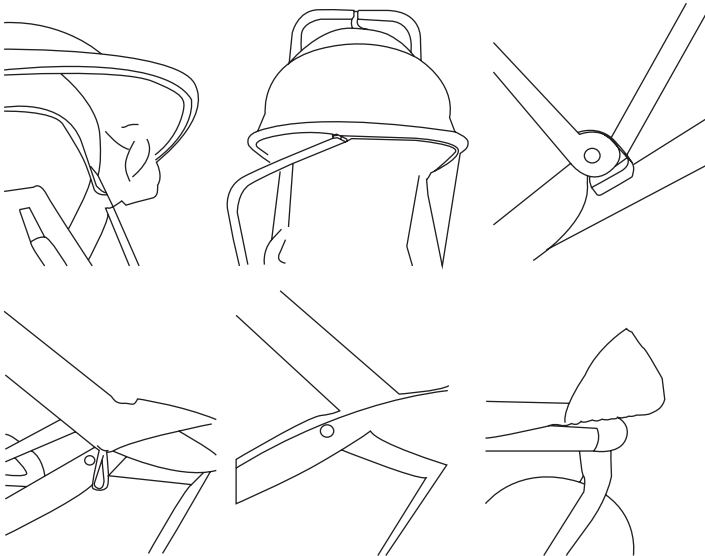

WARNING! Possible pinching hazard

- Be careful of the side hinges when opening and closing the canopy.

- Locate the sunshade extension for the canopy in the mesh pocket under the canopy.
- Detach the two snaps on the mesh pocket and remove the sunshade from the pocket.
- Zip the zipper all the way across the front of the canopy to attach it.
- Fully open the sunshade and attach BOTH snaps on the front of it to the snaps on the sides of the front wheel frame.
- When not use, detach the front snaps, unzip the zipper and store the sunshade in the mesh pocket.

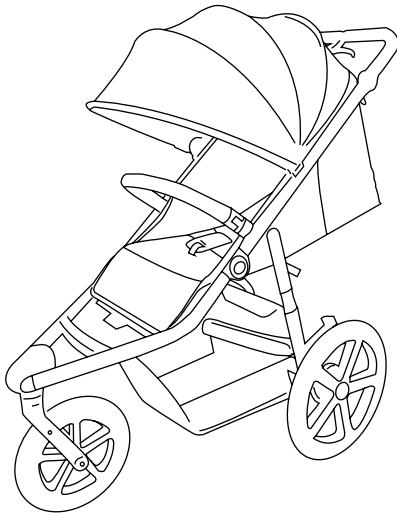

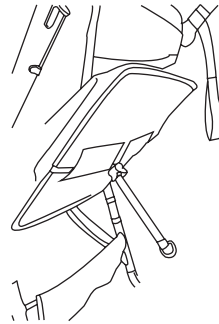

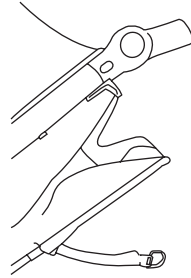

SEAT RECLINE

The seat can be adjusted to any position from upright to reclining.

All seat positions are for children 6 months and above **ONLY**.

1. To recline the seat, loosen the adjustment straps on both sides of the seat and recline the seat until the desired position is reached.
2. To adjust the seat back to a more upright position, simply tighten both adjustment straps until the seat back is in the desired position.

HARNESS

There are three height adjustment positions for the shoulder harness. Adjust the height to the closest height above your child's shoulders.

To remove the shoulder harness, at the rear of the seat turn the plastic ends sideways and push them through the slots in the seatback. Re-attach the harness at the proper height by reinserting the plastic ends through the slots. Ensure both straps are the same height.

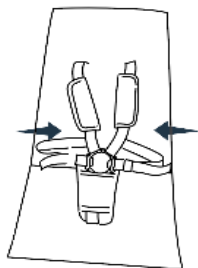

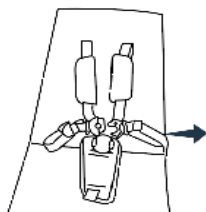

Carefully place the child in the seat with the shoulder straps over their shoulders and chest. Then place the crotch strap between the child's legs.

To unlatch the buckle, press the buttons on both sides and remove the male ends of each side.

Combine the shoulder/waist buckles together, then place the crotch buckle on top of the combined buckles until all parts are in place.

WARNING! Always use the crotch strap in combination with the waist belt.

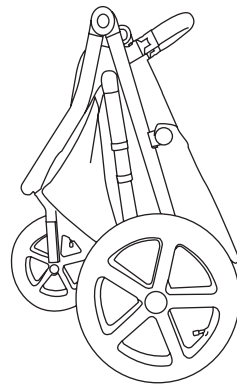

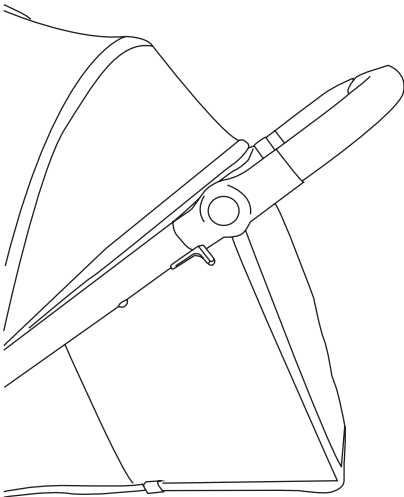

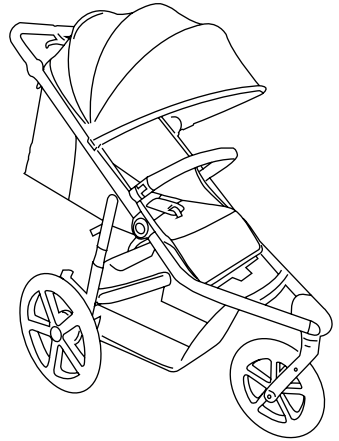

WARNING! Avoid serious injury from falling or sliding out. Always use the restraint system.

FOLDING

Folding the stroller

- Rear wheel brake lever **MUST** be engaged before folding the stroller.
- The stroller can be folded with the seat facing forward in the middle lower or rear higher position.
- Close the canopy if the seat is attached.
- Make sure the front wheels are in swivel mode and **NOT** locked.
- Press the button on the left side of the stroller, below the handle.
- Pull up on the triggers on both sides of the handle and slowly guide the handle down towards the rear wheels and safety latch. The stroller should automatically lock into place. **DO NOT** force the stroller closed.
- Pull up on the handle to ensure the safety latch is secure.

TYRE PUMP

The tyre pump is located inside the storage basket.

1: Remove protective cap from the tyre tube air valve. Attach air tube to the air valve on the tyre.

2. Place the head of the pump over the tire air valve and lift the lever to lock .

3. Use the pump to fill the deflated tire to the appropriate air pressure.

4. Unlock the pump, remove from the tire air valve and collapse to store in the basket.

5. Replace the cap to the tire air valve.

WARNING! DO NOT over inflate the tyres, as this may cause a potentially hazardous condition.

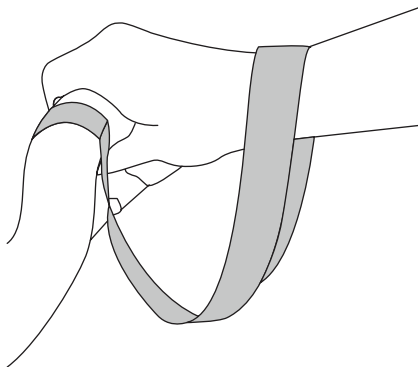

The pump may become warm to the touch, but this is not an abnormal condition.

WRIST TETHER STRAP

There is a tether strap located on the rear frame of the stroller to keep your stroller close by if you lose your grip.

Always loop the wrist tether around your wrist before using your stroller.

INSTALL & REMOVE CAR SEAT ADAPTER

SOLD SEPARATELY

Remove the bumper bar attachment.

Press the button and pull up the small part.

Install the car seat adapters on both side, pull both adapters to ensure is secure.

The car seat can only face backwards.

Hold the car seat by the carrying handle and lower the car seat onto the stroller so that the bracket on the car seat latches onto the car seat adapter. Pull up on the car seat to ensure it is secure.

To remove the car seat, press the release buttons on each side of the car seat and lift up.

Press the button and pull out the adapters.

RAIN COVER

SOLD SEPARATELY

Locate the raincover .

1 .Pull the raincover down over the canopy and tuck the rear section between the back of the canopy and the parent organiser.

2 .Fasten the velcro on the rear section of the raincover to the rear sides. Start near the handle and work your way down the sides.

3 .Fasten the velcro straps at the bottom of the raincover, to the frame below the footrest to secure.
